

Program Management

“To succeed in the digital age, program and portfolio management must move past the traditional confines of “technical PM” to deliver new high levels of enterprise agility and business value. Transformation is crucial, but the risk of failure is real — requiring a fundamental shift in strategies, processes and leadership.”- Gartner Analyst

From the Initiation phases through closing, our program management service brings expertise to deal with the nuances of multi-project management. Our Program Management Office (PMO) framework would help you through:

- ✓ Analyze the current state of the organization
- ✓ Identifies and prioritizes projects
- ✓ Aligns delivery approaches for all projects and work streams
- ✓ Implements cross-organizational communication strategies to ensure effective collaboration
- ✓ Provides aggregated status reporting and program-wide rollups
- ✓ Creates document repositories, issue and risk logs, project plans and project charters
